

Dear Parents,

A new year brings us new hopes. While looking forward to the future, may we recall some good memories that our future shall build upon.

Thanksgiving 360° was held during 18-25 November. In the week, our teachers, Student Ambassadors and the PTA designed different activities for students to learn to have a grateful heart and live in the moment. Students participated excitedly in different games, DIY sessions, photo booths and even food sharing! In addition, the class representatives and teachers tried their very best in the exciting Pumpkin Roll Relay and enjoyed the competitions very much.

Thanksgiving 360°

Christmas Party

Christmas Party was held on 22 December. Students enjoyed different games, performances, delightful music and songs! Many thanks to parent helpers to be Santa Claus, and for the hand-made delicious cookies. Teachers and parents had a warm morning together!

For the 2<sup>nd</sup> Term, the school will continue to organize other school events such as language weeks, STEAM Week, Art Exhibition, Annual Concert, etc. The highlight will definitely be the dedication ceremony of Henry Tan Sports Complex which will be held in late February. I would like to take this opportunity to give my heartfelt thanks to all parents, alumni and students for your generous support in the Fund-raising Campaign conducted in November. We were thrilled and grateful as we raised HK\$2.7M which would be used for the installation of air-conditioners in the covered playground and other furniture in the sports complex. We appreciate you and your love for the school.

Lastly, I wish you and your family good health and a joyful 2022 filled with peace!

Yours faithfully,

Principal Raymond Chou
